

Instructional

The Research Ethics Board (REB) standard operating procedures (SOPs) provided by Network of Networks (N2) are intended to provide organizations across Canada with basic standard processes that ensure compliancy with regulatory bodies and research standards, including but not limited to:

- Tri-Council Policy Statement (TCPS 2)
- International Council for Harmonization Good Clinical Practice (ICH E6(R3))
- Common Rule (45 CFR 46)
- FDA regulations (21 CFR Parts 50 and 56)

Please Note: The REB SOPs are generic to ensure they are applicable for multiple organizations across Canada. We recommend that addendums are created by each respective organization to provide guidance and processes that are specific to their setting.
